

Age Cymru Dyfed

“I’m delighted Age Cymru Dyfed has met the standard and now have the award Investing in Volunteers for another 3 years! This recognition is testament to the dedication of staff in valuing volunteers and the contribution volunteers make to the success of our organisation, we simply couldn’t do what we do without our amazing volunteers!”

The benefits of IIV for our organisation

The staff appreciate the centralisation of volunteer management and the trustees and senior management can see through the IIV process that this management is of a high standard.

The final report was a lovely read to know the changes we have made over the last couple of years have been noticed and welcomed by the volunteers and that they feel valued.

Achieving this award also shows funders and prospective funders we are serious about valuing our volunteers and that everyone is a winner, clients, volunteers and staff.
